

Dr. Ian Wedgwood - President of Consulting Services

Prior to joining SBTI in 2001, Ian worked for the global engineering group Invensys PLC as a Program Manager for major change initiatives. In Invensys Power Systems Division, Ian led the efforts to lean the Divisions' New Product Development processes and then led Invensys' highly successful Lean Design program. Some 380+ Design Belts within Invensys Power Systems alone yielded a 65 times return in less than two years.

Since joining SBTI he has facilitated a number of change initiatives in industries as diverse as electronics, engineered materials, medical devices, chemicals, financial services and healthcare, and has trained and mentored numerous Executives, Champions, and Project Leaders (Belts) in all aspects of organizational change including Design for Six Sigma (DFSS), Six Sigma, and Lean.

Ian joined SBTI's Leadership Team as Executive Director in 2003 and led SBTI's Healthcare Group from its inception.

Later, as the Vice President of New Services and Technology, Ian had oversight of SBTI's new products, services and technologies and SBTI's extensive intellectual property portfolio. As the President of Consulting Services, Ian was instrumental in forming and has led SBTI's consulting business from its inception in 2009.

Ian holds a Ph.D. and a First-Class Honors degree in Applied Mathematics from Scotland's St. Andrew's University.
